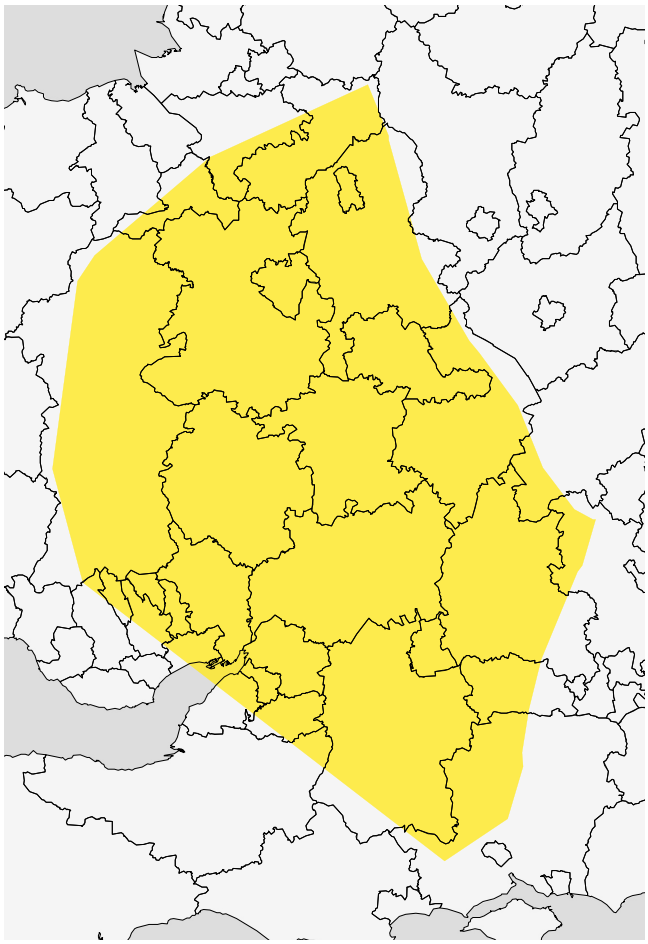
Yellow warning
Snow & Ice

Between
21:00 Sat 6 Feb 2021 and
10:00 Sun 7 Feb 2021



Snow and ice may cause some travel disruption overnight and early Sunday.

What to expect

- Some roads and railways likely to be affected with longer journey times by road, bus and train services
- Some injuries from slips and falls on icy surfaces
- Probably some icy patches on some untreated roads, pavements and cycle paths

Further details

Outbreaks of rain, sleet and snow, the latter mainly over hills, moving westwards across the area during Saturday night. This will lead to 1-4 cm of snow accumulating in places, mainly above 200-300 metres. Temperatures will then fall below freezing with ice forming on untreated surfaces.

Medium likelihood of low impacts

Issued at 10:06 Sat 6 Feb, 2021
